

# HIRAM HOUSE CAMP

OVERNIGHT SUMMER CAMP  
AND HOW TO PREPARE.

## COVID-19 TESTING

### NEGATIVE TEST

72 hours prior to the first day of overnight camp, we ask that all campers have a **NEGATIVE COVID-19 TEST**. Please bring verification with you on the first day of camp.

#### ALL CAMPERS

## PREP AT HOME

## 14 DAYS

We will be sending home a self-assessment sheet to track temperatures and symptoms prior to camp. We ask that all families make appropriate choices in the 2 weeks leading to the start of camp to ensure the safety of all campers and staff.

If you will be traveling or vacationing before camp we recommend wearing a mask while on a plane, train or bus. Avoid large crowds and maintain social distancing when possible. Wash hands or use hand sanitizer. Self-monitor for COVID-19 symptoms; isolate and get tested if symptoms develop.

## COVID-19 VACCINE

The CDC recommends that everyone 12 years and older get fully vaccinated against COVID-19. Campers who are fully vaccinated are at low risk of symptomatic or severe infection. Campers who are fully vaccinated are safe to resume activities in most settings like they did prior to the pandemic. Campers who are fully vaccinated will not need to quarantine if they have had close contact with someone diagnosed with COVID-19.

## OUR COMMITMENT TO YOU

Hiram House is continuing to take actions to lower the risk of COVID-19 spread at camp. We are following guidance from The American Camp Association as well as the CDC. Our camp program will have a mix of campers/staff who are vaccinated and unvaccinated. We will continue to use multiple prevention strategies to help protect our camp family at all times, which includes children under the age of 12. We appreciate your patience and thank you in advance for following our guidance and helping to keep our campers and staff safe this summer.

**WE ARE EXCITED TO SEE YOU ALL SOON!**
